DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 8/10/2007 have been fully considered but they are not persuasive. See the following explanation.

(i) It appears that the applicant has inadvertently overlooked the priority data on the front page of the Lee et al. (2002/0099649), which lists provisional application No. 60/195,156 under "Related U.S. Application Data" with filing date of 4/6/2000, on the right column. Therefore, the effective 103 date of the Lee reference is 4/6/200 which is prior to effective filing date of the instant application which is November 30, 2000. Accordingly, Lee is a proper prior art to base a rejection under 35 USC 103.

[The applicant states that the claims were rejected as being "anticipated by Lee et al.". The examiner would like to point out that the claims were rejected under 35 USC 103(a) as being "unpatentable over Lee et al.". However, this error has no bearing on the foregoing issue of the effective priority date of Lee.]

(ii) The applicant argues that the Lee does not teach or suggest the limitation of "predetermined rules being selectable from a set of rules available for selection by an institution responsible for said first database." The examiner disagrees with this interpretation of Lee reference by the applicant because as pointed out by the examiner at paragraph [0075] Lee teaches that the policy management workstation (PMW) allows merchant to "define, edit, delete any rules it desires". It is noted that once a merchant

defines a set of rules they become a set of rules available for selection by the merchant (i.e. the institution responsible for the rules 108). The merchant then, can select desired rules via the edit, delete and define functions available to it.

Based on the foregoing reasoning, the applicant's arguments are deemed non-persuasive and rejection of claims 1 and 3-67 over Lee reference under 35 USC 103(a) is maintained.

Conclusion

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
